The philosophy of education in the Little Miami Schools is based upon the belief that children are one of the most valuable resources in any community, city, or nation. The maximum educational development of each student is our ultimate objective, and we formulate our curriculum around two major premises.

First, we endeavor to equip our youth with the increasingly complex knowledge and skills to prepare them for vocations or for further formal education in college and professional schools. Second, we strive to introduce our children to practices and ideals of personal and group behavior that will perpetuate and advance the aims and benefits of a democratic way of life.

Please accept my congratulations for having completed twelve years of hard work. For many, this is the end of study, while others will seek additional knowledge. Whatever you decide to do, always uphold the high standards your school has tried to set for you.

This has been a tremendous class with which to work. All of you deserve the best life has to offer. Good luck in all your endeavors.

Mary Jane Couch
1954--1970

Her suffering ended with the day,
Yet lived she at its close,
And breathed the long, long night away
In statue-like repose.

But when the sun in all his state
Illumed the eastern skies,
She passed through Glory's morning gate
And walked in Paradise.

James Aldrich.

STUDENT GOVERNMENT

The Student Government began this year under an entirely new system. For the first time, it is divided into two houses, a Senate and a House of Representatives. The Senate is composed of 12 Senators, three from each class with the Vice-President of the Student Government as the presiding officer. Those individuals in the Senate serve the entire year and are elected in the fall of each year. The House of Representatives is composed of slightly more than 30 Representatives, one from each homeroom with the President of the Student Government as the presiding officer. With this new two-house system a broader based representation has been achieved. This new system has made the Student Government into an efficient, productive organization.

This past year has been an organizing year. The basic groundwork for the operation of the new system had to be laid. Now that the bugs have been worked out, the plans of the Student Government are many and varied. Of primary interest is the providing of more worthwhile events for the student body, such as the large open dance being planned as this goes to press. An attempt to stimulate and coordinate school activities is also being planned, and, of course, a more vigorous attempt to represent YOU--the student-- is planned.
